

ABSTRACT OF THE DISCLOSURE

A method of playing a Blackjack or Twenty-One game that will enable a
5 player to play single or multiple hands and/or wagers against single or multiple
dealer hands in a rapid and substantially automatic fashion. In addition, the
player can pre-select the point value at which to "stand," "split," "double,"
"surrender," and/or "take insurance," when playing single or multiple hands.
The pre-selected strategy can then be duplicated across all player hands being
10 played. The player can also select to "auto-play" one or more hands according
to a preset strategy.
